

## FOR BOTH

One disease of thinness in children is scrofula; in adults, consumption. Both have poor blood; both need more fat. These diseases thrive on leanness. Fat is the best means of overcoming them; cod liver oil makes the best and healthiest fat and

## TIMELY HOUSEHOLD HINTS.

To keep away roaches take green cucumber parings and strew them around the kitchen tables and cupboards and see how quickly the roaches will disappear.

Before putting carpets and rugs away for the summer shake thoroughly to free them from dust, then sprinkle with a powder composed of gum camphor and powdered tobacco. Roll tight and hang them away in clean flour sacks.

In closing the house for summer clean gilded frames with sweet oil, and to prevent flies from getting on the frames rub them with oil of lavender. Wrap books in newspapers and put them back in the bookcase with a number of pieces of gum camphor.

To remove stains from mattresses make a thick paste by wetting starch with cold water; spread this on the stain, first putting the mattress in the sun. Rub this off after an hour or so, and if the ticking is not clear try the process again. Two applications will make it so without fail.

A sure preventive for bedbugs: First thoroughly whisk and dust the beds in every crevice, then take 25 cents worth of quicksilver and the white of one egg and mix thoroughly. Take a small-sized brush and paint every crevice and all along the sides of the bed. If this recipe is followed you will never see a bug.—N. Y. Journal.

## WEEKLY CROP BULLETIN.

For the Week Ending June 3, 1905.

Honolulu, T. H., June 5, 1905.

## GENERAL SUMMARY.

Warm and sultry conditions have continued during the past week, attended by light trade winds. The rainfall has been abundant in all sections of Hawaii, the long-continued drought in the Kau district being at last broken by good showers, under the influence of which crops and pastures in that section already show a marked improvement. Copious rains have also fallen over windward Maui and Oahu and extreme Northern Kauai; elsewhere in these Islands, however, the showers have been very light and more moisture is needed.

Cane is growing well, and most of the plantations are busily engaged in the preparation of land and planting. The grinding of mature cane is proceeding rapidly and is already completed at some of the mills. Pineapple plants are in good condition; the summer crop is already beginning to mature in Central Maui, but has been retarded somewhat by the cool and dry nights in Central Oahu. Rice is now heading and ripening in all sections. Coffee trees are doing nicely. Watermelons and avocado pears are ripening on windward Maui, the latter crop promising a very heavy yield. The mango crop in Central Maui will be short, due to ravages of insect pests at the time the trees were in blossom; the foliage of mango trees in Kona, Hawaii, is being attacked by a blight. Haying is in progress in the Makawao district of Maui. Pastures and stock in most sections are reported in good condition.

Several light earthquake shocks occurred in Hawaii during the week.

## REMARKS BY CORRESPONDENTS.

Section Director.

## GEMS FROM THE KAU WEEKLY

## DOWN WITH CZARISM.

Go to the polls on election day with a determination to put an end to a one man rule. Show by your votes that the purchase of votes with bad Gln will not be tolerated. Compare the Republican ticket with the conglomerated ticket of the opposition, and there will be no hesitation as to which one you will vote. Vote the straight ticket. Down with Czarism and Pohoism.

## MAKINO IS TOO WARM.

Plantation keeps trying to beat Makino, but always retreats with its hands burned. Boss has a learned lawyer in his house all the time. Just like the Russians. If he can get one little victory he will sue for peace.

## "SPEAK UP OR SHUT UP."

The Kau Weekly hereby invites any plantation owner or manager to state through its columns what the objections are if any they have to the government opening its lands tributary to plantations to actual settlement by American Citizens. It seems to us that it would be of advantage to all concerned. In the language of the sublime poet "Speak up or shut up."

## HIS TRUE COLORS.

We learn that since the convention stood for what was good in the Kau delegation the Ruler of the Inoblate Club has come out in his true colors as a Fraud and Stinker, because posing as a Republican he supports now its ene-

mies—for the only reason that he cannot have his own nasty way.

## BEATS A HEN.

Genial George is not only a good jailor, but also a good incubator. George beats a setting hen any time.

## PRISONER.

## SHOULD BE A WARNING.

The riot at Lahaina should be a warning to the owners of a plantation not very remote from the office of the Weekly. When the manager openly calls himself a Russian sympathizer, and discharges a man in the middle of the month because he refuses to pay for rope used as halters to the plow animals, and when the man claims that he can not be fired in the middle of the month without cause, threatens to "lick" him or kick him out of the office. It is about time that laborers asserted their rights.

If plantation owners permit their managers and lunas to antagonize labor by unjust means they must take the consequences. The laborer in this particular case, however, did not fear the "licking" as he knew the manager (so-called) did not have courage enough to "lick" a postage stamp.

## MRS. WILDER TO MEET MISS HORNER

In a fine exhibition of tennis Mrs. Samuel G. Wilder yesterday defeated Mrs. John Waterhouse in the initial game of the ladies' tennis singles. The match, played on the Pacific tennis courts, was a close contest, the first set going to Mrs. Wilder, the second to Mrs. Waterhouse, and the third to Mrs. Wilder, in the following scores: 6-4, 3-6, 6-1.

Both contestants played a marvelously close game in the first two sets. The volleying and serving was something worth seeing. The players showed remarkable skill and were particularly good in returns of serves. In the last set Mrs. Waterhouse fell down under the smashes of Mrs. Wilder.

Owing to Mrs. Brown and Miss Alice Macfarlane defaulting, leaving Mrs. Ivers out of the preliminary games, Mrs. Wilder is now matched to meet Miss Horner, last year's champion. As Miss Horner is a Beretania club member, the game will be played on the Beretania courts, at 4 o'clock tomorrow afternoon. Miss Horner is said to be in excellent trim for the contest, having practiced continually and quietly day after day to defend the honors she gained last year.

## COMMENCEMENT OF KAMEHAMEHA GIRLS

The ninth annual commencement of the Kamehameha School for Girls was held in the Bishop Chapel last evening before a large throng of people. The chapel was beautifully decorated and the graduates made a pretty picture in their white gowns. The program was excellent, consisting of music and essays by the graduates and an address by Rev. S. L. Desha, besides other numbers.

The Graduates were as follows—Academic Department: Louise Keikilani Bartels, Elizabeth Hawea Desha, Julia Kamakahelulookalani Hattie, Lillian Kamehakealani Munden, Agnes Kawehookalani Kalaweola, Helen Ka-leiulookalani Esther Kaivaea, Zelle Pilkea Lima, Elizabeth Kaonohiokala Lui, Keahiloa Rose Nallimu, Kaipolei-manu Senna, Katherine Wilhelm Sadler, Harriet Kahaumeakalani Shel-ton, Emma Keikilalanikulanani Lewis, Kaleilulua Elaine Waiua. Domestic Art: Annie Kahinaueaulani Brown, Annie Keakealani Hattie, Elizabeth Kealohapauole Kahele, Rose Pualinui Leleo.

## Scuttling a City.

The ancient capital of Korea, Ping-yang—which is figuring frequently in the dispatches these days, is called by the natives "the boat-shaped capital," having been built on these lines. No one is supposed to dig for water anywhere inside the walls, as that would be cutting through the bottom and sinking the ship. For this reason water is carried from the river even to the most distant quarters, and the peculiar gait of the water carrier is one of the oddities of the streets.—Philadelphia Press.

## Now is the Time to Wear

**Dr. Deimel Underwear**  
(LINEN-MESH)

A great deal of the sickness in the world is caused by unsanitary woollen underwear. Most underwear is made of linen which while being clean has the great disadvantage of being cold and clammy.

By a special process of manufacture, a soft, warm, porous fabric has been evolved by Dr. Deimel, called Linen-Mesh, which is simply linen with the coldness taken out.

Dr. Deimel Underwear has obtained the unqualified endorsement of the foremost members of the Medical Profession and in every part of the globe gives health and comfort—summer, winter, spring and fall.

This underwear is made in such a wide variety of sizes that we can fit everybody.
